Lee Mathson Middle School School Accountability Report Card Reported Using Data from the 2016-17 School Year Published During 2017-18

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at http://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2017-18)

Lee Mathson Middle School is a school that has high expectations for every student. Since school year 2014 - 2015 Mathson Institute of Technology is committed to providing a comprehensive educational experience for our students to foster the development of critical thinkers, effective communicators, collaborative creators, and committed life-long learners. Students will develop the ability to use technology to analyze, learn, and explore; promoting a college career path in STEM. We emphasize academic rigor and promote positive social and emotional development. We celebrate our community and work to even better our service to our students and their families. We are on a course of continuous improvement, and every indicator points to success! We strive for excellence, and we know that together we succeed. We celebrate community and regularly partner with our beautiful Mayfair Community Center (located right across the street) and with MACSA Youth center. All 6th graders attend an extended learning program until 6:00 p.m. daily to assure student success in transitioning to Middle School. Our college- going culture is prevalent in many student events including College Week and our annual Career Fair. We celebrate over a dozen athletics programs and various student clubs. We welcome all members of the community to get involved in helping our school achieve its goals! Tours are available.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements (Most Recent Year)

Mathson Middle School has a comprehensive school safety plan that outlines protocols, systems, and procedures in the event of any/all emergencies. The plan also contains the yearly safety goals as determined by the students, staff, and parents. The safety plan is developed by the Mathson Safety Committee before it is presented to the Alum Rock Union School District Board of Trustees for annual approval. The revised plan was last approved in November 2014. The safety plan and drill procedures are reviewed during the year with all staff. Safety alerts are shared with all staff as needed throughout the school year. In addition, all required drills are calendared and completed, and the results are shared with the staff.

The Mathson School Safety Plan contains a comprehensive, enforceable, and continuous behavior policy, set of rules and regulations, dress code policy, protocols for safety/emergency drills, tardy policy, attendance policy, referral policy, Internet policy, and nondiscriminatory policy on student rights and responsibilities.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3—Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

• Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (School Year 2017-18)

Mathson values and includes all stakeholders in all facets of the educational process. To encourage parent participation, Mathson maintains a system of open two-way communication and employs a variety of ways to increase stakeholder communication. Not only is the School Accountability Report Card available on the district's website, but pertinent school information, including results of the school evaluation process, school data, and school programs are also available to parents in the Principal's Newsletter, which is written in English and Spanish. Because parent and community participation is essential to student achievement, Mathson School provides a number of parent and community involvement opportunities. Our parent resource center was established and a core group of parents facilitate a multitude of activities including school wide celebrations, teacher support, parenting classes, computer classes, and other opportunities.

We conduct yearly meetings to explain and interpret student assessment results to parents. Parents participate in family math and literacy nights. Their participation reinforces their child's math application and literacy comprehension. The Mathematics Engineering Science Association Outreach program provides students and their parents with information and training towards student success in obtaining math and science degrees. During parent-teacher conferences, parents learn how to provide feedback to their child regarding their writing skills. Parent involvement includes monthly coffee with the principal, weekly ESL and technology classes for parents, school community events and membership in School Site Council (SSC), English Language Advisory Committee (ELAC), District Advisory Committee (DAC) and District English Language Advisory Committee (DELAC).

To learn more about opportunities to be involved, please call the school's principal, Vince Iwasaki, at 408-928-7950.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- · Pupil expulsion rates; and
- Other local measures on the sense of safety.

School Safety Plan (School Year 2017-18)

Mathson Middle School has a comprehensive school safety plan that outlines protocols, systems, and procedures in the event of any/all emergencies. The plan also contains the yearly safety goals as determined by the students, staff, and parents. The safety plan is developed by the Mathson Safety Committee before it is presented to the Alum Rock Union School District Board of Trustees for annual approval. The revised plan was last approved in February 2014. The safety plan and drill procedures are reviewed during the year with all staff. Safety alerts are shared with all staff as needed throughout the school year. In addition, all required drills are calendared and completed, and the results are shared with the staff.

The Mathson School Safety Plan contains a comprehensive, enforceable, and continuous behavior policy, set of rules and regulations, dress code policy, protocols for safety/emergency drills, tardy policy, attendance policy, referral policy, Internet policy, and nondiscriminatory policy on student rights and responsibilities.

Types of Services Funded (Fiscal Year 2016-17)

Lee Mathson modified its regular instructional program to support underperforming students in meeting standards. The program is now designed so that underperforming students enter classrooms equipped with the instructional materials and an instructional focus relevant to students' needs for approaching, and ultimately, meeting grade level standards. A multi-leveled, three-period reading language arts/ English Language Development (ELD) program exists to target instruction in a manner that moves students quickly towards grade level standards.

High achieving students and GATE students are regularly challenged through rigorous instruction and enrichment opportunities. Categorical funds from the site and district are used in order to move underperforming students towards standards. The site also makes use of Title III funds to offer underperforming students additional instruction in mathematics, language arts and ELD through a seven-period day, after school, or Saturday Academy programs. The site implements with the support of City Year, on site tutoring to provide students with additional opportunities to meet grade level standards.

^{*}One Full Time Equivalent (FTE) equals one staff member working full time; one FTE could also represent two staff members who each work 50 percent of full time.

Professional Development (Most Recent Three Years)

Staff development continues to focus on developing instructional writing strategies and classroom organization and management to empower educators in their task of moving students to standard mastery. The site will also be working with representatives from National Hispanic University and the Santa Clara County Office of Education in order to receive training and coaching in ELD strategies. We focus is also in the areas of DOK, Backward Design, and use of Technology in the classroom with an emphasis on Project Based Learning and STEM implementation.

This staff development plan focuses on revisiting issues of management and student engagement from previous years' trainings in standards-based direct instruction and lesson planning, ELD strategies, differentiated instruction and reciprocal teaching.

Further training and coaching will occur with Step-Up-to-Writing. All components of the professional development program at Mathson have been structured so that training, coaching, modeling and peer observation empower a collaborative group of educators towards student mastery of standards.
