UPCOMING PROJECTS

New HVAC Projects: Dorsa/LUCHA

Scope of Work is to install new HVAC within classrooms of the Dorsa ES and LUCHA campuses. Combined project construction budget is **\$2,000,000.**

Project design has been submitted to DSA, with expected Approval by end of October/early November.

At last weeks Bond Facilities Committee meeting it was recommended that District and Del Terra confirm when is the best time to commence Construction and if any Preliminary Construction Work can start in advance of the major Scope of Work.

Further updates will be provided.

Multi-Purpose School Community Centers

Fischer MS-MPSCC

The Design **plans were submitted to DSA for their review process.**

Previously, District Staff and Bond Facilities Committee reviewed the Renderings, provided comments and design clarifications. Overall the Project Design was very well received. No other changes were recommended. District Administration and Bond Facilities Committee (BFC) approved the project's final design.

Renderings were presented to Board of Trustees at July meeting.

DSA review time is estimated to be 6 months, approval expected Nov./Dec. 2016.

- On February 25, 2016 the Planning Team, i.e. Del Terra, District Administration and Project Architect, Sugimura Finney Architects (SFA), met with the Parent/Staff School Site Committee, Principal Barbara Campbell and Site Staff. Meeting was to gather school site input on the preferred ***use and function*** of the new facility.
- On March 3, 2016 the Planning Team and committee also visited the Mexican Heritage Museum to see additional design and function concepts.
- Bond Facilities Committee (**BFC**) reviewed the updated Schematic plans. A few recommendations on access points and aesthetic issues were discussed. Overall Project was recommended to move forward. The plan did comply with all the requirements of the District, Site Staff, and Community Input.
- On Sept. 29th the BFC along with Dist. Admin, reviewed the Updated Schematic plan and approved the Design to move forward to Design Development.
